Preface

Mohi-ud-Din Islamic University Nerian Sharif AJ&K is chartered by the Government of AJ&K and is recognized by Higher Education Commission, Govt of Pakistan. Mohi-ud-Din Islamic Medical College, Mirpur (MIMC) is the first medical institution established in AJ&K. It is located in sector D of New Industrial Area, Mirpur having a covered area of 3.5 million sq. feet. The first MBBS class was started on 27th April 2009 as late session of 2008. The college has been allowed to admit 100 students in each batch.

The Mohi-ud-Din Islamic Medical College (MIMC) is accredited by Pakistan Medical Commission (PMC) and duly approved by the Ministry of Health, Government of Pakistan. Mohi-ud-Din Teaching Hospital, a state of the art 500 bedded hospital has been constructed in the college campus. It has all specialties including the Dentistry Department.

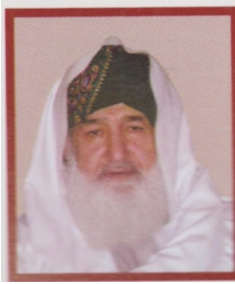

There is no dearth of medical colleges in Pakistan. After entry of private sector in the field of professional education, the number of medical colleges has increased manifold. The founder Chancellor Hazrat Allama Pir Alla-ud-Din Siddiqui R.A (late) had taken a noble initiative to produce high profile motivated medical professionals with Islamic spirit of service and sacrifice for the ailing humanity. To make a notable difference, the college has been established as residential institution to educate and train the youth as noble human torch bearers for the society.

The establishment of the Mohi-ud-Din Islamic institute of Pharmaceutical Sciences (MIIPS) Mirpur was another hallmark in AJ&K. It started its classes of Pharm D in 2010. Doctor of Pharmacy is a semester based program comprising of 10 semesters in 5 years, following the latest curriculum to produce market demanded Pharmacists acceptable nationally as well as internationally.

Mohi-ud-Din Institute of Rehabilitation and Allied Sciences (MIRS) has already started functioning since 4 November 2020. The Mohi ud din institute of Nursing and Allied Sciences (MINAS) has been officially registered by Pakistan Nursing Council on 21 Dec 2020 which is another milestone. It will contribute to overcome the shortage of qualified and highly skillful nursing staff in AJ&K and Pakistan. The university has planned to add new programs like Dentistry. These programs will help develop a state of the art medical city in the suburbs of Mirpur.

During the natural calamities/disasters like earthquake, Pandemics/ Epidemics etc, Mohi-UD-Din Teaching Hospital renders its health care services voluntarily to treat the affected patients to cherish its noble mission of helping the ailing humanity in the crises situation

Hazrat Allama Pir Alla-ud-Din Siddiqui R.A (Late)
The Founder Chancellor

Tribute

A prominent cleric and mystic, a visionary dynamic social activist and iconic figure who was renowned and admired not only in Pakistan and AJ&K but all around the world. He represented Islam, Pakistan and AJ&K at every forum and brought laurels for Islam and the country. He played an active and vital role in uplifting education (religious and secular) and exercised his full potential with hard work and courage to extend valuable services to humanity indiscriminately in all spheres of life.

He was a marvellous and unmatched man. May Allah, the Almighty bless his departed soul with immense and infinite amenities! Aameen!

Hazrat Sahibzada Pir Sultan-UI-Arfeen Siddiqui
Chancellor

Message

By the grace of Allah Almighty, the Mohi-ud-Din Islamic Medical College (MIMC) Mirpur AJ&K has been recognized by the Pakistan Medical & Dental Council and approved by the Ministry of Health, Government of Pakistan. MIMC has unique distinction of being the pioneer in providing an extraordinary facility in the field of quality medical education involving huge financial investment in AJ&K. It has been my desire that the graduates of MIMC, should not only be equipped with the modern knowledge in the field of medicine but also be trained as Allah fearing doctors having basic knowledge of Islamic values. Due essence is laid upon the character building of students. A state of the art 500 bedded teaching hospital with all specialties, has been constructed at the campus of the college. There is a plan to expand the health care facilities by establishing a Dental College. By the Grace of Almighty Allah, the process of establishing Institute of Nursing and Allied Sciences has already been completed and recognition by the Pakistan Nursing Council is pending due to the COVID-19 pandemic. An institute of Rehabilitation Sciences is in the process of establishment.

Needless to mention that the process of learning and achievement of excellence is a legacy of our religion. The chronicles of history repeatedly bear witness to the fact that Muslim scholars pioneered and made gigantic leaps in various branches of modern science. We, therefore, are custodian to a trust vested into us by the dictums of Allah Almighty.

During the natural calamities like earthquake, pandemic like COVID-19 outbreak, the Mohi-Ud Medical College and Mohi-Ud Teaching Hospital have played a leading role in providing health care services and providing the required space/ward for "Quarantine/isolation" to the affected persons in the national medical emergency.

24 September 2019 earthquake affected building infrastructure of the college and hospital were repaired/retrofitted well within the shortest possible time span through cohesive, dedicated and gigantic efforts of all concerned persons of Mohi-ud-Din University, Medical College and the hospital without compromising the engineering work quality. I deeply appreciate the team work, spirit and commitment of concerned stakeholders in this context. Almighty Allah has been very kind in helping us overcome various challenging tasks effectively.

Maj Gen (R) Viqar Ahmed Khan HI (M)
Vice Chancellor

Message

The establishment of the Mohi-ud-Din Islamic Medical College at Mirpur AJ&K and its induction as a premier medical institution both in the public and private sectors of professional education in Azad Kashmir has been a wonderful event which has made us really proud. Similarly, its prompt, spontaneous recognition and approval by the then PM&DC (now Pakistan Medical Commission (PMC)) and Ministry of Health, Government of Pakistan, is another feather in the cap of the Mohi-ud-Din Islamic University through untiring efforts of its founder Chancellor, Allama Pir Alla-Ud-Din Siddiqui R.A (late) who had devoted his life to serve the cause of humanity with unflinching devotion. The present Chancellor Hazrat Sahibzada Pir Sultan-UI-Arfeen Siddiqui rigorously followed the glorious tradition set by his late father, and rendered very keen and generous interest in growth and glory of this distinguished citadel of brilliance. The expansion in allied facilities in the form of extension of teaching hospital and establishment of Nursing Institute for paramedics and institution of Rehabilitation Sciences, reflect his keen interest.

Notwithstanding multitude of problems and hurdles in the way of achieving this objective, the university has provided a platform to realize dream of attaining excellence in profession which revolves primarily around alleviating the human sufferings.

The University has, on its part, arranged the best of faculty and other allied infra-structure at a huge cost which runs into billions of rupees for accruing maximum benefit for the attainment of ultimate objective of quality professional education through hard work, devotion and commitment.

The challenging task of rehabilitation and repair/ renovation of earthquake affected building infrastructure under the auspicious guidance and supervision of the worthy Chancellor, was accomplished in exemplary manner by all concerned which is commendable and by the Grace of Allah reflects our resilience ability in crisis. During the COVID-19 pandemic, the establishment of "Quarantine ward" in Mohi-ud Teaching Hospital and allocation of Reserve Quarantine center facility in the Faculty Hostel of the college, deeply reflect the preparedness and deep desire for alleviation of human sufferings in disease or agony.

Prof.Dr.Syed Hyder Raza
Principal and Dean, Faculty (Health and Medical Sciences)

Message

It is a privilege to be the Principal of first ever Medical College of AJ&K that was established in 2009 as a constituent institution of Mohi-ud-Din Islamic University Nerian Sharif led by a team of dedicated and highly committed faculty and administration. Mohi-ud-Din Islamic Medical College is recognized by Pakistan Medical Commission (PMC) Islamabad.

The College and its affiliated hospital i.e, Mohi-ud-Din Teaching Hospital are providing extremely conducive environment for imparting training to students and rendering specialized health care facilities by highly qualified and experienced faculty and administrative staff.

We, at MIMC, are striving hard to maintain and uplift the Islamic and ethical values of our students besides enlightening them with most modern knowledge of mandatory specialties of medicine. Their character building and personality grooming, in conjunction with the Islamic teachings and spirit, are our additional areas of focus.

I assure the parents and students that we will continue our untiring efforts to further enhance the standard of medical education in the college. Five batches of students have already graduated and these graduates are serving in different hospitals of AJ&K, Pakistan and abroad with good name and fame of MIMC. Quite a number of graduates of this institution are undergoing Postgraduate training in different health/medical institutions of Pakistan besides serving in the Armed Forces of Pakistan.

During the crises situations in natural calamities, the college and its teaching hospital always take initiative in extending helping hand to public sector in overcoming the challenging task of patients management.

As a team, we believe in excellence and are passionate about doing everything to the best of our ability. I am pleased that you are selecting this institution for professional education of your ward. I wish all the students success and zenith in their coming academic career in this hub of glory.

MOHI-UD-DIN ISLAMIC UNIVERSITY NERIAN SHARIF AJ&K

The University was established under Mohi-ud-Din Islamic University Act 1999 passed by the Legislative Assembly of Azad Jammu & Kashmir. The main objective underlying the establishment of the university, is to produce graduates equipped with modern knowledge in combination with the basic religious education to enable the challenges of new millennium.

The Higher Education Commission (HEC) has affirmed the equivalence of the degree diplomas and certificates awarded by the University with the corresponding degrees, diplomas and certificates of other universities in Pakistan. The main campus of the University is located at a beautiful hill station with its majestic multi-storeyed buildings at Nerian Sharif (Tarakhal), Azad Jammu and Kashmir. The main campus spreads over 10 acres of land and is situated at about 6,000 feet above sea level. It has enchanting surroundings and fascinating natural environment. Nerian Sharif is situated to the North East of Islamabad at a distance of 125 km.

The establishment of Mohi-ud-Din Islamic University under the patronage and able guidance of the founder chancellor Hazrat Pir Alla-ud-Din Siddiqui RA (late) has been a real blessing of Allah Almighty in the economically backward area of Azad Jammu & Kashmir. The university offers 13 programs from BS to PhD at the main campus. Mphil and PhD programs are offered in education & Islamic Studies and mathematics whereas only Mphil degree program are offered in Biotechnology, Botany chemistry and computer science IT.

The University is putting in its best endeavors to meet the requirements of various professions needed for the development of human resource. Overwhelmed by the principle to develop human resource in the field of modern medical education, the University commissioned Mohi-ud-Din Islamic Medical College at Mirpur as its constituent college.

Mohi-UD-DIN ISLAMIC MEDICAL COLLEGE

Vision

To enhance our national and international recognition as a medical college of the first rank, known for excellence in the disciplines of teaching, research and service with the assimilation of Islamic values.

Mission

Mohi-ud-Din Islamic Medical College has been established with the aim of producing dignified young doctors with spirit of Islamic Values, proud of their heritage, Islamic traditions and free of complexes. It is embarked with the mission to produce quality medical professionals and well skilled human capital in the field of medicine for the welfare of Pakistani nation in particular and for the humanity in general.

LOCATION

The Mohi-ud-Din Islamic College is located in the south east of Mangla Dam in the beautiful city of Mirpur, AJ&K. The college is located in the industrial area, 5 km from down town. Mirpur city is situated in the south east of Islamabad at 2 hours drive and linked with G.T. Road at Dina at a distance of 25 Kilometers. Mirpur is one of the major cities of AJ&K located at its southern border. It has been redesigned and built after the demolition of old city over which Mangla Dam was constructed. Mirpur city is a beautiful blend of old and new civilization enriched with culture heritage. Extreme weather is observed in Mirpur especially in winter and summer that may be followed by windy and rainy season.

MEDIUM OF INSTRUCTION

The medium of instruction is English. A foreign candidate is required to submit a certificate from the head of institution last attended to the effect that he/she can read, write and speak English fluently and that the medium of instruction was English.

The Faculty

The College is proud of having highly qualified and experienced faculty. The Heads of Departments of Basic and Clinical Sciences are pivots in attaining academic excellence in their respective disciplines

ADMINISTRATION

The college is headed by the Principal. The administrative functions are carried out on the principle of division of work where separate department/ sections like administration, human resource, accounts, student affairs, procurement, maintenance & repair and stores etc, function to provide necessary services.

Security

Fool proof security environment has been provided within the premises and perimeter areas of the college and the affiliated teaching hospital by deploying well trained, highly disciplined and experienced security staff/ guards at key points during 24 hours. They have been hired from a private sector security company of good repute. The bulk of the security staff belongs to retired army soldiers. CCTV cameras have been installed at various locations in the college and hospital to monitor the academic activities in classrooms outdoor and indoor patients' departments, keep an eye on the activities of all personnel besides monitoring the security concerns or potential security threats.

TEACHING DEPARTMENTS

Department of Anatomy

The Department is located on ground floor with a well spacious Dissection Hall, a mortuary with two chillers for 8 dead body shelves, a separate well equipped lecture hall, seminar rooms, histology lab, departmental library and a museum. Dissection hall is air conditioned with a huge capacity for training more than 100 students at a time; Histology lab is equipped with microscopes and CCTV system attached with teaching microscope. Museum contains important models, soft and hard specimens and all required implements. The department is headed by a qualified professor supported by a high profile faculty and ancillary staff.

Department of Biochemistry

The Department is situated on ground floor of the Academic block with a covered area of 5175 sq. ft. The department includes a lecture hall, a well-equipped lab, seminar/demonstration room, faculty offices and departmental library. The lecture hall is equipped with proper heating and cooling facilities, UPS, teaching aids, multimedia with screen, overhead projector and proper sound system. The department is headed by a highly qualified Professor, supported by highly efficient faculty and staff.

Department of Physiology

The Department is situated on the first floor with a covered area of 5175 sq. ft. The department has faculty offices, a well-equipped air conditioned lecture hall with audio visual facility to accommodate more than 100 students. There is a Lab with latest equipment and instruments. The department also has a conference room, demonstration rooms and a seminar room. There is a departmental library as well which has latest books pertaining to the subject. The department is staffed by experienced and qualified faculty and technical staff.

Departmental of Pathology

The department includes an excellent museum with precious specimens, air conditioned lecture hall with audio visual facility for more than 100 students, demonstration rooms, two state of the art labs and an examination hall. The department is headed by a well-known professor of pathology and has highly qualified faculty members along with skillful technical/other staff. It also has its departmental library.

Department of Pharmacology and Therapeutics

The department is located on the first floor. The department has state of the art museum having different sections like pharmacological preparations/drugs, classification charts, pharmacognosy and toxicology with relevant specimens. The museum is equipped with teaching aids and is also used as a demonstration room for 40 students. There is a spacious air conditioned auditorium of 350 seats with proper sound system and audio visual aids connected to two seminar rooms having a capacity of 100 seats each through CCTV, an examination hall, demonstration rooms, fully equipped hi-tech lab and faculty offices. There is a separate animal house behind the academic block. The department is headed by a highly experienced and well qualified professor duly supported by qualified faculty and technical staff.

Department of Forensic Medicine

The department includes a lecture theater, a toxicology lab, forensic museum, demonstration rooms and faculty offices. All rooms are properly furnished and well equipped. The department is headed by experienced, qualified professor along with other qualified faculty and staff.

Department of Community Medicine

The department is located on the first floor. The department has a state of the art skills development laboratory and learning resource center. It has different sections, like section of primary health care, vaccines, contraceptive, devices, entomology, filtration plants, infectious diseases, nutrition, tiers of health care and many more. Hall and corridor of the department are full of charts and learning aids for the students. About 80 students can be imparted instruction and demonstration in the resource center. In addition, there is a lecture hall and offices for the faculty. Department is headed by a highly qualified and experienced professor and supported by well experienced and qualified faculty and staff.

Department of Medical Education

The department of medical education is located on the first floor adjacent to the auditorium. It is well furnished and equipped with all necessary audio visual aids as per requirements. Two seminar rooms having a capacity of 100 seats each, are connected with the main auditorium through CCTV. It has a well qualified and experienced Head of Department, efficient faculty members and supporting staff.

Skills Learning Lab

This lab is well equipped with various models, dummies and other accessories/learning tools where students are given practical demonstrations and made conversant with the medical emergency /other procedures in the practical domains of patient/health care. It is managed by a highly qualified, dedicated and experienced faculty member.

Department of Islamic/Pakistan Studies

The department is located on first floor adjacent to the library, and is staffed by qualified teachers. The department besides having modern facilities, has a collection of about 1000 Islamic books on different topics.

CLINICAL DEPARTMENTS

Mohi-ud-Din Teaching Hospital with 500 beds capacity is attached with the college. The clinical departments available in this hospital include General Medicine, General Surgery, Gynecology, Pediatric Medicine, Ophthalmology, ENT, Radiology, Pathology, Psychiatry, Dermatology, Pediatric Surgery, Dental Surgery, Neurology, Urology and Orthopedics. All these specialties and sub specialties are headed by highly qualified, skilled, well reputed and experienced faculty along well qualified and efficient specialist teachers. The paramedical staff and the nurses too are well trained and skillful in their job.

Paramedics and Nurses Training

The establishment of institute for the nurses and paramedics at the MIMC premises, has been completed. it will cater for the nursing care needs of the teaching hospital, and will also be a rich source to provide trained nursing human resource for AJ&K and Pakistan. It has highly qualified and well experienced teaching faculty along efficient supporting staff. Its accreditation by Pakistan Nursing Council is in process which has been delayed due to COVID-19 pandemic. In addition, Institute of Rehabilitation Sciences has been established very recently.

EDUCATIONAL AND SOCIAL FACILITIES

The College provides state of the art facilities for professional development and applications of knowledge. It also has residential and other educational facilities as described below.

Computer Lab

Information technology is an area which is mandatory for every professional in the present era of modern technology. A well-equipped IT laboratory has been established where skills in the use of computer are taught and polished. All computers are connected though LAN. Internet facility is available to help students keep themselves abreast with latest techniques in the field of information technology and medical discipline. Internet facility has been provided to the students for educational purpose in compliance to the PMC policy. The college and hospital are being provided with the services of management, instructional and medical information system through the network connectivity . It has immensely contributed to the speedy and efficient delivery and working of health care system to the clientele, storage of data and swift working of all departments of the college.

Hostels

Hostel accommodation is provided to all students except those belonging to Mirpur City. There are two separate hostels for five hundred male and female students which are well segregated from each other. Each hostel is managed by separate warden. The hostels are equipped with all requisite facilities. The student rooms are fully carpeted. The rooms are fully furnished and also provided with study tables and cupboards for each student. Students are only required to bring their own pillows with their covers, bed sheets and blankets. A separate hostel for staff is also available. There is a well-managed faculty hostel to accommodate the teaching faculty members, including those belonging to the distant and far-flung areas of the country. Its rooms are spacious and properly furnished.

Book Shops

In order to ensure the prompt and cost effective provision of books of different medical sciences / literature to the students, Two separate students book shops(in each hostel) have been established in the college premises. These shops remain open during working hours and the evening time.

Students Mess

The boys and girls messes are well apart from each other and there are separate dining halls for boys and girls. Charges are as per expenditure. To facilitate efficient functioning, appropriate mess rules / regulations have been formulated which are being practised. There is a Mess Committee which holds its meetings periodically to keep an eye on the quality of food and catering services being rendered besides addressing the relevant problems faced by the dining members during routine functioning.

Canteens/Cafeterias

Separate canteens/cafeteria facilities are available for male and female students, college employees within the college campus adjacent to respective hostels. Cafeterias, fruit shops remain open from 6:00am to 12:00pm. The cafeteria is also providing the fast food services of high quality. Mohi-Ud-Din Teaching hospital has two separate canteens which are meant to provide meal, allied food/bakery item services to the patients, their attendants, and hospital staff/doctors on their demand.

Co-Curricular Activities

Sports

Healthy body is essential for healthy mind. The sports activities amongst students not only inculcate the sportsman spirit in them but also enhance their physical and mental alertness. Various outdoor and indoor sports activities are organized in the college.

An excellent exercise gymnasium equipped with the latest exercise machines/ equipment, has been established in the Boys hostel for the students and other personnel of the college to help them maintain and promote their physical fitness and well being. It remains open in the evening during working days

The college holds its Annual Sports Week with great fervor regularly. Students participate in it with keen interest. Separate sports events are organized for the boys, girls, faculty members and staff of the college and hospital. There is a well maintained play-ground close to the hospital where students play the outdoor like games cricket, hockey and football. A well maintained basket ball court is available for the boys located adjacent to the Anatomy Block. Matches are also held with various teams of other educational institutions located at Mirpur. The facilities for indoor games like badminton and table tennis are also made available in boys and girls hostels.

Excursion Trips

Excursion Trip for each class is arranged regularly to any hilly station or historical/other famous site at the choice of students of concerned class. A fortnightly trip to Mirpur City, is arranged for the boarder girls enabling them to make purchases.

Debating/Literary Activities

These activities are held periodically to blossom the communication/speaking skills of the students and provide them a forum to develop self confidence and literary acumen

Patients' Welfare Society

As a part of philanthropic and humanitarian help, the college students have organized a patients welfare society which renders monetary assistance to the needy employees and students of the college suffering from any disease/disorder requiring treatment beyond their affordability. A one day carnival is held in the college premises under the sponsorship of college. Different vendors from Mirpur City establish their stalls, sell their items to students, faculty members and other employees of the college and hospital at the mutually agreed special rates. The earned profit is then donated to the patients welfare society

Teaching Hospital

A state of the art 500 bedded Mohi-ud-Din Teaching Hospital (MOTH), purpose built facility, owned by the college has been constructed adjacent to the College. It is a well equipped healthcare facility which has well trained paramedics, nursing and other supporting staff. All required diagnostics and provisions are available for management of all types of medical ,surgical cases and emergencies. By virtue of its teaching status, facilities exist in the hospital for imparting clinical training to medical students in a befitting manner. It has all specialties and many sub specialties. In case of natural calamities like earthquake or outbreak of any epidemic/pandemic, the hospital renders its contribution in extending the patient care services for effected patients in collaboration with the public sector. Such special role is in conformity with the college mission of serving and treating the ailing mankind particularly during the hours of national/local medical emergency and natural catastrophes of bigger magnitude

Barber Shop

It is located close to the Boys Hostel and is providing services efficiently to the male students and college employees. It remains open daily for two hours during evening

Medical Care Facilities

Students are entitled for emergency treatment and admission at MOTH . However, medicines are provided for emergencies only. No drugs are provided on long terms basis for chronic ailments and the diseases or disorders that are covered under cosmetic treatment e.g. treatment of acne etc. An inventory of common generic drugs is displayed to cover emergency treatment. Students are issued medicines for emergency cover from this inventory. Branded drugs prescribed by non-faculty doctors, are not provided from the hospital.

MOTH has its own pharmacy shop in its premises to entertain the clientele. All emergency, routine treatment drugs and other medical treatment items are available at normal rates in it. It remains open throughout 24 hours.

Transport

Transport is provided to the students from college to Mirpur city and back. The college has highly effective contingent of own transport including buses, ambulances, coasters etc .It is also providing free of cost shuttle service facility to the desirous patients from Mirpur city to MOTH and back. The ambulance cars/vehicles remain on duty for 24 hours to cater for any emergency evacuation or shifting of patients.

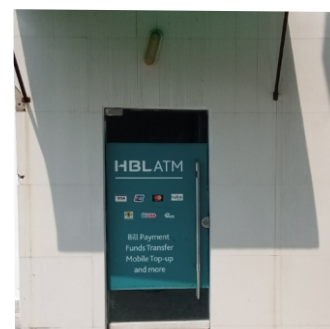

Library

The central library is located in Academic block and remains open for all students from 8:00 am till midnight. The facility is provided to male and female students at different timings on the same day. Separate reading rooms are also available. It has a rich reservoir of books in the fields of modern medical sciences, literature and religion. Separate departmental libraries also exist which contain the medical books of the particular subject in abundance.

ATM Facility

The HBL ATM facility has been provided within the college premises for students, faculty members and staff employees. The aim is to facilitate swift withdrawal of required cash by desirous persons at the doorstep in safe and secure college environment

ADMISSION

The Mohi-ud-Din Islamic Medical College (MIMC) Mirpur is open to all eligible candidates from anywhere in the world. Black Socks	Black Socks
Black Shoes	Black Shoes

Note:

1. In addition to the above dress, the students will wear white full sleeves overall (knee long) during lectures, practical classes and hospital postings
2. Male students will maintain haircut of a normal size and shave regularly. Students having beard are to keep it trimmed.

ATTENDANCE

80% attendance in lectures, practicals and other academic activities separately is essential for eligibility to appear in university examination.

LEAVE

1. All leaves of absence will be granted by the Principal.
2. Sick leave will be granted on recommendation of a consultant/faculty member of MIMC or on production of medical certificate from registered medical practitioner in case of any medical emergency on weekends /vacations only.
3. Students residing in the hostel are not allowed to leave the campus without permission of the warden.
4. Leave for Hajj/Umrah will be sanctioned by competent authority on case to case basis only.

DISCIPLINE

1. The students are required to abide by the rules and regulations of MIMC. The college/University expects and demands absolute integrity and honesty from its students concerning their day to day life in the college.
2. Unethical/unlawful behavior during examination or in college campus, hostel, or at a public place anywhere else, may result in removal from the college/University rolls.
3. Other causes of removal will include submitting false documents, stealing, willful destruction of or damage to college equipment, furnishings or property, physical violence against other students/faculty members/staff/patients, use of intoxicating drugs, possession and use of arms/ammunition in the college/hostel, violation of civil rights of others, indulgence in political, subversive or union activities or working for political parties, organization of civil disturbance and non-payment of fee/dues etc
4. A student, who remains absent without leave for a period of four consecutive weeks, will be struck off the college rolls. He /She may, however, be readmitted on the recommendation of the college Academic Committee and on deposit of readmission fee as a fresh student only.
5. The MIMC campus, hostels and the hospital premises are "No smoking areas" for faculty, staff and students.
6. The use of cell phone in college and hospital during study/working hour is prohibited.
7. The student shall be responsible to pay for any physical damage of property etc. caused by him/her

ASSESSMENTS AND EXAMINATION

1. Minimum 80% attendance and completion of the log book is required for a student to be eligible for module/clerkship and certifying examination (s).
2. The assessment techniques/tools used are appropriate for the learning outcomes, the level of the learner and the domains tested.
3. Formative and summative assessment: The same tools may be used for formative or summative assessment. Formative assessment will be used only for feedback to develop the learners, while summative assessments will be used to make pass/fail or progress decision. Any assessment where the results contribute to a final score, and leads to a decision of the progress of the students, are considered summative.
4. Feedback to students is provided after both formative and summative assessments.
5. Summative assessment consists of the sum of the continuous assessments score (Internal assessment based on assessment of student performance during the module or clerkship) and end of year university examination.
6. Re-sit examination. There may be opportunities for Re-sit examination for the summative component of continuous assessment and end of year assessment.
7. University Examination will be held at the end of each academic year.

Internal Evaluation

An Internal Evaluation is carried out at regular intervals at the end of each term. It is carried out in the form of periodic tests, term tests and sendup test after the completion of a prescribed course of lectures, demonstrations and clinical work. The internal evaluation score will constitute 10% of the total marks allocated to each subject of the MBBS program in all the professional examinations. The internal evaluation will consist of the following:

1. Continuous Assessment Test: Monthly
2. Term Test: After every 11 to 13 weeks.
3. Send-up Test: About one month prior to each professional examination, a send-up/professional examination test, covering the entire course and theory, viva and OSPE/OSCE will be conducted by the college. Passing marks in continuous assessment test, term test and in send up test are 50%

External Evaluation/ University Examination

1. As per the university rules, the candidates having less than 80% attendance in lectures/demonstrations /practical/tutorials or clinical hours of any subject, will not be admitted to Annual Professional Examination of the University.
2. The leave availed by student will not be considered as acceptable and will affect the 80% attendance(not considered as the contact hour(s))
3. Before each professional examination, the student will have to produce a 'No Dues Certificate' on a prescribed proforma. Those students, who fail to produce the required certificate, will not be permitted to sit in the professional examination.

OTHER OBLIGATIONS

1. The Principal has the authority to restrain, at any stage, a student from appearing in the professional MBBS Examination of the university on the basis of ill-discipline, shortage of attendance and poor academic performance, besides, if in his opinion, the student has conduct or character, unbecoming of a medical student.
2. Minimum passing marks for each subject in every examination are 50% which are to be obtained separately in theory and in viva voce/OSCE/OSPE.
3. On completion of professional university examination, the students will provisionally be promoted to the next higher class. On announcement of the result by the university, all such students who are declared as failed, will be allowed to continue their studies with the next higher class till result of supplementary examination is declared. No student will be promoted to next higher class unless he/she is declared successful in supplementary examination.
4. The students who fail even in the supplementary examination of the university, will have to attend lectures/practical/tutorials/clinical with the class to which they are relegated. It will be mandatory for such students to once again attend at least 80% of the prescribed academic activities (lectures/practical/tutorials/clinical etc.) For the remaining time of the college hours, they will carry out supervised self-study or attend academics in the concerned department. In such cases the lectures, practicals, clinical demonstrations, attended during their provisional promotion shall stand cancelled.
5. The students who failed to clear the first professional MBBS examination in four attempts availed or unavailed after becoming eligible for examination, shall cease to become eligible for further medical and dental education in Pakistan.
6. The use of unfair means in internal examination will be reported to the Principal while such cases in professional examination will be reported to the University for appropriate action against concerned student.
